8. ANTI-FRATERNIZATION.

- A. Roosevelt County encourages employees to develop friendships and share a spirit of teamwork and camaraderie both in the workplace and outside of work. In instituting this dating or fraternization section, it is not the County's goal to interfere with the development of co-worker friendships and relationships.

From a supervisory perspective, these relationships may be perceived as favoritism, misuse of authority, or potentially, sexual harassment. Even if no improper conduct occurs, the relationship would likely cause gossip, hard feelings, dissatisfaction, and distraction among other employees in the workplace. The relationship may appear to other employees as an inappropriate use of the position of power. The fraternization that is prohibited by this section includes dating, romantic involvement, sexual relations; close friendships are discouraged in any reporting relationship.
- D. Notify your Elected Official or Department Head and the Human Resources Administrator if a coworker's relationship is a concern and might be, from the County's standpoint of job performance, a workplace disruption. Any disruption in the workplace is subject to discipline or adjustment in shift status if available.

9. FITNESS FOR DUTY.

The County endeavors to provide a safe and productive work environment for the benefit of its employees and the public they serve. Employees are expected to manage their health in such a way that they can safely and effectively perform their essential job functions and to discuss with their supervisor any circumstance that may impact their ability to do so. The County may require professional evaluation of an employee's physical or mental capabilities to determine his ability to perform essential job functions. Such evaluations are conducted by an independent third party, licensed health and or mental health care professional and are undertaken only after careful review by Human Resources. To the extent possible, the County will protect the confidentiality of the evaluation and results.

This evaluation process is for only those situations where reliable observation indicates that the employee may not be physically or mentally able to perform the essential functions of his position due to a physical or mental condition. It is not intended to be a substitute for sick or medical leave request, worker's compensation claims, allegations of violence in the workplace, situations where there is an immediate threat of harm, or performance management disciplinary process.

A. PROCEDURES.

If, by observation of an employee's behavior or by receipt of reliable information, the County has reason to believe that an employee may lack the ability to perform the essential functions of his position due to a physical or mental condition, the following steps will be taken:

1. The Department Head or Elected Official will provide Human Resources with detailed information regarding the reason for and circumstances leading up to the fitness-for-duty referral, including information on essential job functions, evidence of the employee's inability to perform those functions effectively, and any attempts at resolving the matter.
2. Human Resources will review the information provided in the referral, along with a current job description of the essential functions of the employee's position. If it is determined that a fitness-for-duty evaluation is necessary, Human Resources or a designee will notify the employee in writing.
3. Human Resources will determine the independent, third party, licensed health care professional who will perform the evaluation, send a written request for an evaluation to him, and will schedule the evaluation at the earliest opportunity.
4. Failure on the employee's part to comply with a scheduled fitness-for-duty evaluation constitutes insubordination and will be cause for disciplinary action, including termination.
5. The County will pay all costs of the health care services performed by the health care professional as part of the evaluation.
6. If the County Manager deems it necessary, the employee may be placed on temporary, paid administrative leave until the evaluation is completed.

7. The employee will be requested to sign a voluntary written authorization allowing the health care professional to provide certain information obtained through the evaluation to the County. If no authorization is executed, the County may nevertheless obtain a description of the functional limitations of the employee that may limit the employee's ability to perform the essential function of his job, but no statement of medical cause may be disclosed.
8. Insofar as feasible, the results of the evaluation will be treated as confidential, kept in a separate file with Human Resources, and the minimum necessary information will be shared only with those who need to know the results for legitimate County business purposes.
9. If it is determined that the employee is not able to perform the essential functions of his position, Human Resources will attempt to determine if there is a reasonable accommodation that will allow the employee to continue working. If an appropriate accommodation cannot be made, other options will be identified and communicated to the employee as available.
10. If it appears that any functional limitations on the employee's ability to perform the essential functions of his position are the result of a work-related injury, the matter will be referred to Worker Compensation for the processing of a Workers' Compensation claim.
11. All actions taken in carrying out this section will comply with state and federal laws, as well as County policies and procedures and applicable contractual provisions.

B. EVALUATION AND RESULTS.

The fitness-for-duty evaluation will not be conducted for the purpose of diagnosis or treatment, but rather for the purposes of determining an employee's ability to perform the essential functions of the job. Human Resources will provide the evaluator with a description of the essential function of the employee's position prior to the evaluation. The evaluator will be asked by Human Resources to release only that information as permitted under this section or otherwise permitted by law. The evaluator will be asked to complete a written report containing only the following information.

1. A conclusion regarding the determination of fitness-for-duty;
2. A description of the nature and extent of any functional limitation on the employee's ability to perform his job;
3. A description of the expected duration of each such functional limitation; and
4. An opinion as to whether or not the functional limitation may be the result of a work-related injury as related by the employee; further medical examination or investigation may be necessary to determine if the functional limitation arises out of, or has been caused by, the employee's occupation.

C. Insofar as feasible, the results of the evaluation will be treated as confidential, and will be shared only with those who need to know the results for legitimate County business purposes. However, where the employee has placed at issue his medical history, mental or physical condition, or treatment, the relevant information may be used and disclosed by the County in connection with such proceedings.

D. The County Manager will make a decision regarding the employee's status, including but not limited to the employee's return to duty or removal of the employee from any duties pending treatment and re-evaluation, depending on the results of the evaluation and the recommendation of the evaluator. In certain circumstances, the employee may be subject to medical disability termination pursuant to Section 5.11 of this Personnel Ordinance.

Should the County's agent not collect a split sample, the results of the test for which a split sample was not collected, will be disregarded by management and the employee will not be required to re-test for this specific testing period.
